I. AUTHOR INDEX

("P" before a page number indicates "Patent")

Note.—In the transliteration of names originally written in Russian the system followed so far as possible is that of *Nature* 61, 396-7 (1890), in which *g* is used instead of the *w* or *f* of other spellings, *zh* instead of *sch* (*sh* instead of *tsch*, etc. Thus Pavlov not Pawlow, Chugaev not Tschugaeff. To make quite sure, users of the index should in such a case look under both spellings.
